

Security Monitoring

Around the clock by World Wide Security Experts

Benefits:

- ★ Comply with PCI, HIPAA, SOC2 type I and II, GDPR, CCPA, NY SHIELD Act
- ★ Enhance your security posture with ongoing threat detection and incident response
- ★ Extend your in-house IT team with dedicated cybersecurity experts and 24x7x365 security monitoring team
- ★ Save money with a transparent payment model
- ★ Get daily and monthly security and compliance reports

UnderDefense's goal is to help companies with limited resources of the small and medium size to build a budget enterprise-class security program

To effectively detect anomalies inside your system and comply with regulations required by your client we offer the security monitoring service. Unfortunately, many companies can't build security program in-house due to the lack of talented cybersecurity resources and the high cost of acquiring required security technologies

UnderDefense, as your First Responder, has an all-in-one solution for you

Hunt, Detect, React, Comply

UnderDefense's security monitoring service immediately gives you a proactive network security program that hunts, detects and quickly reacts to cyberthreats with proven methodologies

You get a full visibility over your processes, perimeter of threat detection, compliance monitoring, and SIEM and log management through our SOC-as-a-Service solution

45
Security engineers

4
Products launched for our clients

Combining log management and SIEM technology with machine learning, big data, and artificial intelligence, UnderDefense helps you to proactively reduce threats and meet compliance objectives

How It Works

Each customer receives a team of CyberSecurity Specialists, who gets familiar with their client's systems, processes, compliance requirements, and security goals. UnderDefense, as your First Responder, provides a 24/7 security monitoring of your critical logs in order to meet compliance and disclose advanced threats inside your systems

Features

- Incidence response
- Advanced threat detection
- Log management
- SIEM and SOC-as-a-Service
- User activity monitoring
- Threat hunting
- Remediation guidance
- Forensics analysis
- Executive level presentations and reports

Key Service benefits

Improve cybersecurity

You receive a comprehensive, up-to-the-minute threat intelligence, visibility into security events, real-time incident notification and guidance to react to cyber risks proactively

Reporting

We help you be sure that you meet defined security and compliance reporting objectives for your teams and executives

Gain Peace of Mind

UnderDefense World Wide Cybersecurity experts are committed to helping you achieve results and implement best security practices in your organization and protect your information and systems. If a breach is discovered, we give you field-proven procedures to quickly respond to an incident and minimize effects

Extend your team

Delegate security to UnderDefense security experts while you focus on other priorities. We monitor your systems outside of business hours for round the clock coverage

Meet Compliance

Achieve compliance requirements with UnderDefense comprehensive reporting that aligns with industry regulations and cybersecurity standards for PCI DSS, SOC2 type I and II, GDPR, HIPAA, NIST, and others

Save money

No software to buy! We use your tools and turn them into power-guns. Minimize your capital investments into costly dedicated security technology. UnderDefense delivers exceptional return on investment (ROI) from day-one.

underdefense.com

UnderDefense is entirely focused on cybersecurity by planning, building, running security programs for our customers through the right combination of people, processes and solutions.
